Help prevent blindness by attending Music Under the Stars.

Music Under the Stars: Burt Appel's Hawaiian

Join us for our revelatory Anuenue Music Under the Stars Burt Appel's Hawaiian, a fundraiser for our Foundation's Children's Vision Program. This year's event will be held in Kaneohe, Hawaii, the home of music legend Burt Appel. The evening will feature an intimate performance by Burt Appel, accompanied by his band, and will be followed by a lively cocktail reception and dinner. All proceeds from the event will support our mission to prevent blindness and vision loss in children.

Miami Lighthouse students take South Regional Braille Challenge by storm.

Last week, students from our Children’s Program at the Miami Beach location took part in the South Florida Regional Braille Challenge. The event was held at the Miami Beach High School, one of the country’s best-known schools for the blind. The challenge was designed to assess students’ skills in reading and writing Braille, and in the end, our students excelled.

The main emphasis within the Braille program centers on improving communication skills, increasing literacy, and fostering independence. The South Florida Regional Braille Challenge is an annual competition that brings together students from across the region to share their achievements and compete for the title of the best Braille student.

SAGA clients enjoy a ‘berry’ special day at Knotts Berry Farm.

On Friday, February 23rd, clients in our Social Group Activities (SGA) Program went on a field trip to Knotts Berry Farm, a popular tourist destination in Southern California. We are so grateful to the staff at Knotts Berry Farm for providing such a wonderful experience for our clients. The day was filled with laughter, excitement, and fun-filled activities. Our clients enjoyed visiting the various attractions, including the roller coasters, the farm, and the assorted food stands. It was a truly memorable day for them, and we hope to make it a tradition.
